Soft Skills
Agile Project Management, Problem Solving, Collaboration, Communication, Interpersonal, Organizational, Time Management, Documentation, Adaptability, Continuous Learner

Professional Experience

Software Engineer II — GM Financial, May 2024 - Present.

- Develops and maintains JavaScript components for various user-facing functionality and back-end logic within production level code.

- Writes Node test for JavaScript components within the production code base, led to increasing code coverage by 2%.

- Collaborated with cross-functional teams to develop a comprehensive refactoring plan, ensuring minimal disruption to ongoing projects and timely delivery of enhancements.

- Utilized Postman and Oracle SQL Developer to streamline API and database testing processes, enhancing efficiency by automating test scripts and managing multiple environments.

Associate Software Engineer— Makse Group, LLC, August 2022 - September 2023

- Developed modular scalable code, incorporating responsive design, and performance optimization through React, JavaScript, HTML, and CSS.

- Collaborated seamlessly across cross-functional teams, contributing to a cohesive work environment.

- Enhanced existing production code with newer features, implementing modern web app UI development, and consuming Restful APIs.

- Integrated features using back-end logic and SQL database through seamless functionality of user interactions.

Freelance Website Developer, — Nazwood Millworks, July 2022 - August 2022

- Crafted a multi-faceted web page, transforming Figma Wireframes into a responsive, accessible, user-friendly UI/UX.
- Consistently exceeded all project deadlines, delivering client-requested modifications in a timely manner while maintaining code quality and performance.
- Documented application specific practices for team growth, training on application solutions and support.

Band Director, — August 2015 - July 2022

Education
Louisiana Tech University — B. A. Music Education 2015

Volunteer Work
Dallas Software Developers Community — Admin, Feb 2022 - Present

- Organized and managed community 6-week Cohort Group Project Events; 8 events to date, averaging 25 participants.

- Collaborates with the admin team to enhance user interactions and optimize community engagement and personal growth.
